

St Columba's United Reform Church

Address Chantry Road, Moseley B138DD

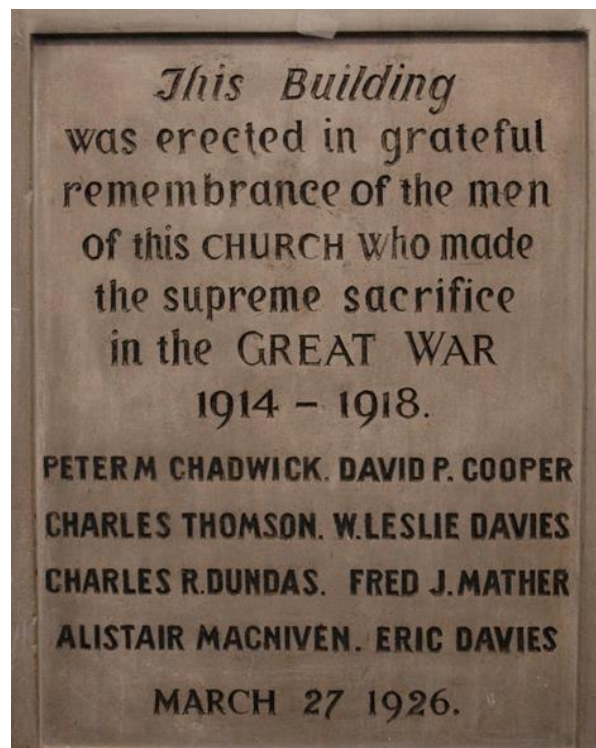

History After a competition between seven architects to design a rather grandiose Church, Halls, Manse and Caretakers Lodge it was decided to just build the Lecture Hall for the time being as there were insufficient funds for the full scheme.

The foundation stone was laid in December 1897 and the building completed on the site of the present church in 1899.

By 1937 the condition of the Church building became critical, the early problems never having been resolved properly, and despite the clouds of war gathering, the old church building was demolished and the lovely Church that we have today was built on the original foundations.

Eight young men of the Congregation gave their lives in the Great War.
